

Newcastle E-Alert

DATE: August 14, 2007
TO: Newcastle E-Alert Recipients
FROM: Eric Robinson, City Engineer
SUBJECT: 136th Ave. SE Road Reopened

136th Ave. SE between SE 78th Place and SE 79th Drive is now open to traffic. The road had been closed for 1 ½ days to investigate and repair it after a large sinkhole had opened up in one traffic lane. The sinkhole was caused by a culvert failure under the surface of the road.

A construction project to replace the damaged culvert is expected to begin in mid September and last about 2 to 3 weeks. A road closure will be required during construction.

Additional information will be provided prior to the start of the culvert replacement project.
